# MARALI SHASHANK

Java Backend Developer | Spring Boot 3 | Spring Security + JWT | React 18 | MySQL | Docker | AZ-900 Certified
maralishashank@gmail.com | +91-6305516008 | linkedin.com/in/maralishashank | github.com/Maralishashank | Hyderabad, India | Open to Relocate

## PROFESSIONAL SUMMARY

Java Backend Developer (2025 Graduate) with hands-on experience building a production-grade full-stack application using Spring Boot 3, Spring Security 6 + JWT, React 18, MySQL, and Docker. Former Junior Java Developer Intern experienced in RESTful API development, database optimization, Docker deployments, and Agile/Scrum-based SDLC. Strong foundation in OOP, Data Structures, and backend architecture. Microsoft Certified: Azure Fundamentals (AZ-900). Available for immediate joining.

## TECHNICAL SKILLS

**Languages:** Java 11/17, SQL, Python (basic), JavaScript (basic)
**Backend:** Spring Boot 3, Spring Security 6 + JWT, Spring Data JPA, Hibernate, REST APIs, JDBC, OOP, Data Structures, SOLID Principles
**Frontend:** React 18, React Router v6, Axios, Bootstrap 5, Chart.js, HTML, CSS
**Databases:** MySQL, Database Design, DDL/DML, Joins, Indexing, Query Optimization
**Tools & DevOps:** Git, Docker, Maven, IntelliJ IDEA, Postman, Swagger UI / OpenAPI, Agile / Scrum, SDLC
**Testing:** JUnit 5, Postman, Swagger UI **Cloud:** Microsoft Azure — AZ-900 Certified

## PROFESSIONAL EXPERIENCE

**Junior Java Developer Intern** | *Vangrove Tech Pvt Ltd* Aug 2025 – Oct 2025

- Built and maintained RESTful backend modules using Java 11, Spring Boot, and Spring Data JPA/Hibernate, improving code modularity and API response performance.
- Implemented CRUD operations, entity relationships, and optimized SQL queries using MySQL; reduced query overhead by refactoring JOIN-heavy endpoints.
- Supported Docker-based deployment workflows, reducing environment inconsistencies across dev, test, and staging setups.
- Participated in Agile sprints, daily standups, and code reviews; collaborated with cross-functional teams to debug REST endpoints and integrate frontend modules.

## PROJECTS

**Student Management System** — Full Stack Web Application Aug 2025 – Oct 2025
*Spring Boot 3 • Spring Security 6 + JWT • React 18 • MySQL • Docker • JUnit 5 • Chart.js • Swagger UI*

- Built a production-grade full-stack app with Admin & Student RBAC — 9 REST controllers, 15+ secured endpoints using Spring Security 6 + stateless JWT; implemented login, forced first-login password change with short-lived 15-min tokens, and @PreAuthorize method-level authorization.
- Admin panel: student CRUD with live name filtering, course/subject/marks management, duplicate-safe daily attendance, and analytics dashboard with Chart.js bar charts and live stat counters.
- Student panel: personalized dashboard with average marks, attendance %, course enrollment (duplicate-safe), and announcements; React 18 frontend with private routes, role-based routing, jwt-decode, and Axios interceptor for auto-logout on 401.
- Containerized with Docker; documented all APIs with Swagger UI / OpenAPI; wrote JUnit 5 unit tests for core service layers.

**Diabetes Disease Prediction System** Nov 2024 – Feb 2025
*Python • Django • Scikit-learn • Data Analysis • Machine Learning*

- Performed EDA on the Pima Indians Diabetes dataset (768 records); implemented and evaluated 5 ML classification algorithms, achieving 76% prediction accuracy.
- Developed a Django-based web interface to present data-driven health insights to end users.

## CERTIFICATIONS

- **Microsoft Certified: Azure Fundamentals (AZ-900)** — Microsoft, 2025
- **HackerRank SQL Skills Certificate** — HackerRank, 2024

## EDUCATION

**B.Tech, Information Technology** Nov 2021 – Jul 2025
Malla Reddy Engineering College, Hyderabad | GPA: 7.98 / 10.0
